Historical Events in January 2020

- Georgia beats Baylor in the 86th Sugar Bowl
- Scotland's Peter Wright beats Dutch player Michael Van Gerwen in the World Darts Championship
- Ken Jennings is officially named the Jeopardy GOAT

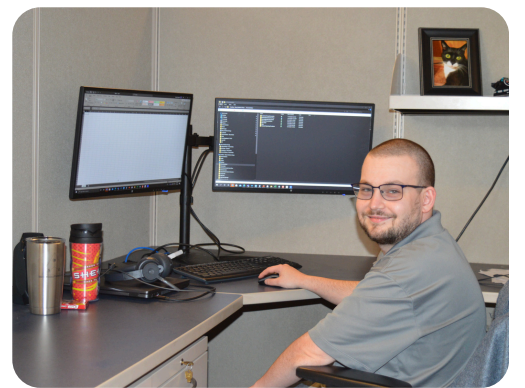

BERRY SOLUTIONS GROUP OPENS!

When John Berry opened BSG in January of 2020, no one could have predicted the unpredictability of the year. Despite the upheaval, business flourished! What began with 2 locations, 4 employees, and a business plan became 3 locations, 30 employees, and a successful company. 5 years later, BSG morphed into so much more than a standard IT company.

With emphasis on creating solutions, BSG offers a wide array of services, including

- Service desk, endpoint, and data center managed services
- BaaS and DRaaS Expertise
- Hardware and software sales, deployment & management
- Cybersecurity audit mitigation
- Camera systems and access control implementation and support
- Telephony implementation and support
- Low voltage cabling
- IT Staffing

As a certified Service Disabled Veteran Owned Business, BSG is proud to keep integrity and determination at the forefront of everything we do. John often touts our core values of Mutually Beneficial Relationships, Treating Others the Way You Want to Be Treated, and Communication Solve Most Problem. With this in mind, we look forward to whatever the next 5 years bring! And we hope you're along for the ride!

EMPLOYEE CELEBRATIONS & SPOTLIGHT

As Berry Solutions Group celebrates its 5th anniversary, we would like to take the opportunity to acknowledge the man who made it possible. With the inspired vision and leadership of owner John Berry, BSG continues to grow and thrive.

"Our success is possible because of you!"

John Berry is a relationship, business development sales guy to the core. As the Fearless Leader and founder of Berry Solutions Group, he is a total team player and no stranger to the true meaning of leadership.

As a 3rd generation Marine, John believes in three major characteristics of the business and honors each of them in the mission of BSG -Quality, Service, and Integrity. These, combined with his determination to provide a custom plan and strategy to every client, ensures that all levels of business are able to exceed their IT and network needs through the implementation of the latest technology.

John has years of technology and industry staffing experience including dual degrees in Technology & Business Administration and positions held in Business Development at Fusion Digital & Global Data Consultants previously. With these qualifications, John prides himself on finding the right candidates for his team with specializations in IT support and service, Technology Recruiting & Staffing, Network Service, Infrastructure design, and Management support. He also strives to ensure that members of the BSG team have the right interpersonal skills necessary to match individual client personalities and corporate cultures.

John lives in Everett, PA on his first-generation farm with his High School sweetheart, his son & his daughter continuing to build on the Berry Family legacy.

SPECIAL ANNOUNCEMENTS

This month, BSG is introducing our brand-new invoicing portal, WisePay. WisePay is a secure online payment service that will allow all clients to view and pay current invoices via credit card or ACH. To establish your account, please contact accounting@berrysolutionsgroup.com to request a setup link and enter contact and payment information. We will be happy to assist you with any questions.

February 1, 2025 marked Cody Virgillo's four-year anniversary with Berry Solutions Group. Thanks for everything you do, Cody!

February 3, 2025 marked Jarrid Magalich's four-year anniversary with Berry Solutions Group. Thanks for everything you do, Jarrid!

February 12, 2025 marked Bailey Smith's one-year anniversary with Berry Solutions Group. Thanks for everything you do, Bailey!

WELCOME OUR NEW EMPLOYEES

BSG IN THE COMMUNITY

Congratulations to The ARC of Washington County, who recently participated in the Best Nonprofits to Work For survey! Based on responses provided for 2024, the ARC's technology related scores increased an average of 12%. This is due, in part, to the support provided by BSG. A representative of the ARC specifically thanked the dedicated support provided by employees Stephen Cermak, Trevor Musser, and Garrett Houghton.

We are grateful for your hard work and effort!
